ADDRESS UZ125 FEATURES

SPACIOUS STORAGE DESIGN

With a spacious design and capacity of 21.8 Litres, the under seat utility compartment can accommodate shopping bags, rain gear or other items. The inner pocket on the left front side is easy to access, even when sitting on the scooter, perfect for small items the rider may want to keep close at hand. A pair of sturdy hooks let you hang various types of bags with greater convenience. The back hook can be locked to better secure items and can be folded out of the way when not in use.

COMBINED BRAKE SYSTEM

Suzuki's Combined Braking System supports well balanced braking by distributing braking force to both front and rear wheels when the left brake lever is operated. Stable stopping power is provided by a 190mm diameter disc on the front and a 120mm diameter drum brake in the rear

LIGHTWEIGHT FRAME

The product of repeated simulations that employed CAE technology, the under bone frame is built using large diameter, thin round material. Designed to minimise weight while maximising rigidity, this frame contributes to the Address 125's outstanding fuel efficiency. It also provides excellent straight line stability and positive cornering performance

PLUSH RIDE

The front suspension settings provide a smooth and comfortable ride, with the spring rate and the operation of the telescopic front forks optimised for the front wheel weight distribution of the Address 125. Both the forks and rear suspension are finely tuned to deliver solid road-holding performance, agile handling and a plush ride.
